

Transfer Station – Map and Residential and Hauler Traffic Flow

## **Transfer Station – Residential and Hauler Traffic Flow**

### **Please note:**

- **Residents and Haulers enter through the same entry point**
- **Residents and Haulers dispose of household waste in different areas**
- **Residents and Haulers dispose of recyclables in the same area**
- **Residents drive over the scale, but are not weighed**
- **Haulers drive over the scale and stop to be weighed**
- **Haulers are weighed three times: at entry, after dropping off household waste and then again after dropping off recyclables. Watch for haulers entering from the left at the entry point and when exiting the scale area.**

**Enter here to the right.**

**Do not attempt to drive beyond the barrier. That portion of the road is one way.**

**Haulers are required to re-enter to be re-weighed on the scale.**

**Continue to the weigh scale.**

**Keep a distance between your vehicle and the vehicle or hauler truck ahead of you.**

**If there is a hauler on the scale, do not drive onto the scale, as haulers are weighed using the scale**

**Expect them to remain on the scale for 30 to 60 seconds.**

**Drive over the scale  
and stop at the stop  
sign.**

**Follow any  
instructions from  
the attendant**

**Wait at the stop sign until you are instructed to move forward.**

**If you have a question, roll down your window and shout to the attendant.**

**The attendant will not come closer than six feet.**

**Travel to the left  
across the road to  
the disposal area.  
Watch for hauler  
trucks coming  
down hill from  
the right.**

**The first container  
is for solid waste.  
The last is for  
recycling. Note  
that haulers will  
be in the recycling  
area as well.**

**Follow the signs**

**Cross the road and go straight up. Watch for  
hauler trucks coming down hill from the right.**

**While at the Transfer Station:**

- Practice social distancing. Leave 6 feet between you and others
- Wait your turn to dispose
- Follow the instructions of the attendants
- Attendants are instructed to keep 6 feet of distance between themselves and visitors to the Transfer Station
- Do not ask the attendants to dispose of or help carry your bags
- Failure to follow the instructions of the attendant or abusive behavior may result in loss of the use of the facility
